

- I resolved over 331 immigration cases and supported residents with over 719 housing issues, including 60 families facing homelessness.
- I held 5 Resident Advice Mornings across the constituency to help residents with the cost of living crisis, with support on housing, childcare, energy bills and more.
- Over 140 local jobseekers attended my second Roehampton Jobs Fair.
- I led public meetings on crime, active travel, women's rights and environmental action.
- We now have more police on our streets after I asked Mayor Sadiq Khan for more officers, who stay local to the area for longer.
- I'm working with businesses and the Council to combat air pollution and reopen empty shops on Putney, Roehampton and Southfields' High Streets.

Parliamentary work

- I've held the Government and former Prime Minister Boris Johnson to account on ethics, standards and crony contracts on the frontbench in my role as Shadow Paymaster General.
- I pushed through new laws on flexible working for parents and to end trophy hunting.
- I travelled with the Parliamentary delegation to Ukraine to meet with President Zelensky.
- I visited Pakistan with MPs on behalf of the Ahmaddiya community in Putney to highlight human rights.
- I've spoken nearly 200 times in the House of Commons this year about issues including soaring mortgages, NHS services, environmental protections, against the cruel Illegal Immigration Bill and on mitigating the negative impacts of Brexit.

Transport and environment

- I successfully led the campaign to save the 14 and 74 bus routes from Government cuts.
- I progressed my campaign for a lift at East Putney Station to the next stage. Transport for London are now considering a feasibility study.
- I've continued to campaign to reopen Hammersmith Bridge to vehicles, including buses.
- I submitted an active travel report to Wandsworth Council to ask for safer cycling, walking and wheeling routes. I also led my Big Putney Bike ride, attended by over 100 local cyclists.

Taking climate action

We are in a climate emergency. We need our political leaders to take action now to protect life on our planet for generations to come. I regularly push for the Government to go further and faster on cutting emissions, investing in green jobs and renewable energy sources. This issue simply cannot be kicked down the road.

Part of my action on tackling the climate crisis has been campaigning against any expansion to Heathrow Airport. It is already the biggest CO2 emitter in Europe. Another runway is simply not the answer to increasing trade in the UK. Residents living under the flight path should not have to suffer any increase in noise pollution or early morning flights.

I founded the Putney Environment Commission, a meeting of local residents who come together to discuss measures we can take to protect our environment. Please do get in touch if you'd like to join the Commission.

I've been campaigning to ban plastic in wet wipes for three years. A ban will stop damage to our oceans and rivers and save money on our water bills. The Government have finally announced that they will back my ban, but haven't announced **when** the ban will come into force. I will keep campaigning until the legislation is passed.

I am here to help you

Dear resident,

I have lived in Wandsworth for over 30 years and I love our area of London. It is an honour to represent you in Parliament. I am writing to let you know about some of my work on your behalf over the past year.

These are very unusual times. There is Conservative political chaos and the worst cost of living crisis this country has seen for decades. I know that this last year has been incredibly challenging for so many in Putney, Roehampton, Southfields and Wandsworth Town and will continue in the months ahead. As Shadow Paymaster General, I have challenged three Prime Ministers on rule-breaking and on their Covid response which should have been more about communities than cronies.

I take the responsibility to stand up for you in Parliament very seriously and work hard every week to speak about the issues that matter to you. I have spoken on issues such as renting and mortgage costs, our high streets, the climate crisis, air quality and sewage, cladding, childcare, education, Heathrow's third runway, international issues and our health service.

There have been highs too; saving the 14 and 74 bus routes, the Jobs Fair in Roehampton, Community Advice Days, cutting costs of school uniforms, saving Southfields allotments, getting onto the TfL list for a lift for East Putney station, visiting Ukraine and cutting violence against women and girls.

Cost of living crisis

The cost of living crisis is getting worse not better. Wandsworth's Labour Council have led the way in providing local support. But the Government's chaos - culminating in Liz Truss crashing the economy - has not helped working families at all.

I have demanded action in Parliament and worked hard locally to tackle this crisis. Thank you to all the faith organisations, schools and charities that supported my 'Putney Gives' donation drive for our local food banks. I hold weekly surgeries and regular Advice Mornings to help residents with advice on housing, energy bills, childcare and more. Do get in touch if you need support.

Cleaner air in Putney

Clean air, alongside housing, is the issue residents raise with me most often. I am campaigning for a Clean Air Act in Parliament to tackle air pollution urgently. Locally, I have published a report, following consultations and public meetings, on safer walking and cycling.

I have lobbied the Mayor of London and TfL to make all the buses on Putney High Street fully electric and they are making progress. I held my second Big Putney Bike ride, attended by over 100 cyclists. I will keep campaigning for more safe cycle routes and bike hangars. I'm also fighting to protect our public green spaces.

Fighting for our NHS

I was delighted to celebrate the 75th Anniversary of our NHS - but it is in more danger now than at any point in its history. I am horrified by rates of staff exhaustion, ambulances waiting outside hospitals due to lack of beds and patients waiting years for operations.

I am delighted I managed to save Queen Mary's Urgent Treatment Centre from closure and will continue to demand services that meet our needs. Social care also needs urgent reform. **I am determined to fight for our NHS to be properly, publicly funded so it can thrive for the next 75 years.**

Housing must improve

Mortgages in Putney are rising and homeowners continue to pay the cost of the Truss economic crash. I have demanded urgent Government action on tackling soaring mortgages for households. Mortgage rate increases are also making private renting increasingly unstable in Putney.

Renting is too insecure and too expensive. I have demanded an end to no-fault evictions and a Renters Reform Bill to make renting more fair. I have supported more than 60 families facing homelessness over the past 12 months.

I have not stopped campaigning on the cladding crisis and demanding leasehold reform. The financial and emotional toll of the cladding crisis has been terrible. We have made significant progress but I will not stop until all residents are protected by law from paying huge sums of money to fix housing problems they did not cause.

I send out a monthly newsletter to share my work and important local news. **Please sign up!**
